Doug. I just approved the work plan today. Skeo may not be ready by next week or have it to you in advance. If so it is my fault. We have been buried with planning for the sequestration implementation.

Subject: Passaic CAG tables

Hi Terrie, Kirby,
Our next CAG meeting is next Thursday 3/14. We discussed having the comparison tables complete by then for review. Please let me know if we are still on target for that and when we might see the tables so we can prepare appropriately.

thanks
Doug
